Vairavan K

CAREER OBJECTIVE

I would like to turn out to be a java developer where I can work as a team member and to secure a position where I can efficiently contribute my skill and ability to growth of the organization and make my professional career.

EDUCATIONAL QUALIFICATION

- **National Engineering College | Kovilpatti**
B.E. Mechanical Engineering, 2022 (CGPA: 8.7)
Member of Society of Automotive Engineering (SAE) Club.
- **Paavai Polytechnic College | Namakkal**
Diploma in Mechanical Engineering, 2019 (80%)
- **Theni Kammavar Sangam Matriculation Higher Secondary School | Theni**
SSLC,2016 (70%)

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS, SQL

Libraries and Frameworks: React JS, Spring Boot, Hibernate

EAI: WebMethods 10.15

INTERNSHIP

- I had done the internship in Wipro Limited for a duration of two months. During the period I was trained in Java-J2EE and at the end I had done a capstone project Automated teller machine web application.

WORK EXPERIENCE

- Project Engineer at Wipro Limited (May 2022 – Present)

PROJECTS

- **AUTOMATED TELLER MACHINE(ATM)**

It is a web-based application developed using the help of Spring Boot framework. It had been forced on both administrator and customer priorities. The priorities are like add branch, create new customer, modify the details of existing customer, delete the customer account, clearing the cheque, generate account statement etc.,

- **FLAMES CALCULATOR**

It is a web application developed by using JavaScript, HTML, CSS

Source Code: <https://github.com/vairavan2001/FlamesApp.git>

- **TO-DO APP**

It is an application developed by using React JS library. This application is used to add our daily tasks. We can able to check-in and check-out the task completion status and can able to see the count of task completed and pending and can delete the task as well.
